

Scavenger Hunt !

While the woods are bare of vegetation, search the forest floor for deer antlers, turkey feathers and shells left behind by hungry squirrels. Scan tree branches for abandoned bird nests, hornet hives and woodpecker holes. If you walk quietly and watch carefully, you might even see animals out and about as they search for food and mates. There's tons of treasures for you to find! *How many can you check off the list?*

- ☐ A good walking stick
- ☐ Pine cone
- ☐ Bird nest
